TRAINING FOR COACHES & CHANGE AGENTS

"How do I know which Kanban practices to introduce and when?"

"I need to avoid resistance to change!"

"How do we align on what needs to change?"

"I want to be able to guide my organization's evolution"

GIVING EFFECTIVE, CONTEXT APPROPRIATE ADVICE

KANBAN MATURITY MODEL (KMM)

The Kanban Maturity Model codifies more than 10 years of experience implementing Kanban across diverse industries, in businesses small to extremely large. It plays an important role in creating unity, alignment, a sense of purpose and good governance. Use it to gain a better sense of achievement, provide better products and services, delight your customers, and realize superior business results.

The Kanban Maturity Model maps typical Kanban practices as well as cultural values against 7 organizational maturity levels. This becomes a powerful tool for coaches and consultants leading Kanban initiatives and helping businesses improve their agility. KMM provides a proven road-map of guidance on recommended practices to meet improvement goals. This road-map helps eliminate two common failure modes in Kanban and Agile implementations: overreaching causing an aborted start; and false summit plateaus that fail to realize full benefit.

KANBAN COACHING PROFESSIONAL (KCP)

This course will teach coaching tools and techniques to be successful leading significant evolutionary change initiatives with a goal of achieving Maturity Level 2 or Maturity Level 3 at an enterprise scale.

This 2-day class, intended for coaches and consultants, offers a codified Kanban Method approach to introducing and implementing change and is specifically designed to augment the 3-day Kanban Maturity Model class.

Individuals who are KMPs, complete KMM and KCP are awarded the Kanban Coaching Professional (KCP) credential by Kanban University.
